## Hybrid SPC Flooring

Product Name	Hybrid
Specification	1500*228*6.5mm
Weights	21KG
Finish	Matte
Locking System	Click Lock

Hybrid flooring delivers the perfect combination of strength, style, and practicality, making it a standout choice for modern interiors. Built with multiple layers that blend stone and plastic, it offers excellent stability, durability, and resistance to everyday wear. Its fully waterproof design makes it especially suited to areas exposed to moisture, such as kitchens and laundry rooms, ensuring long-term reliability.

With wide and long planks, hybrid flooring creates an open, contemporary look that enhances the sense of space in any room. A diverse palette of finishes—ranging from warm natural timber tones to sleek, modern designs—allows it to seamlessly complement a variety of décor styles. Easy to install and effortless to maintain, hybrid flooring provides homeowners
